About me

I'm a beginner in the IT world, but I'm very enthusiastic, and i constantly learning new technologies. I really enjoy programming, I feel this is my future. If I had to describe myself in a few words, I would say that I am a maximalist and ambitious person.

Work experience

Dec 2023- Feb 2024
Progmatic Academy Kft.

Junior Full-stack Developer - Project Work

After years in maintenance I wanted to change my career, so I attended a fullstack developer course which started in April 2023. At the end of this course, we had to show what we had learned in a project work, where we worked in agile methodology.

2019 - Present
ASM Security Kft., Schrack Seconet Kft., ZedFire System Kft.

Service Technician

Since 2019, I have worked for several companies as a service technician. I dealt with the maintenance of security systems, mostly fire alarm systems, but also camera systems, alarm systems, access control systems, etc.

2016 - 2019
MÁV-START Zrt.

Electronic Technician

I renovated the electronic systems of old train cars, for example cameras, seat occupancy indicators, fire alarm systems.
